

PED 0639

## Breathing Noise Suppression Mask Microphone

- Mask acoustic noise suppression
- Unique innovative and patented noise suppression system
- Amplified electret microphone type
- Aviation mask mic equivalent
- Significant reduction in breathing noise
- Allows multiple “live” microphones on any intercom
- See our website [Pambry.co.uk/microphones](http://Pambry.co.uk/microphones) to see a demonstration of this technology

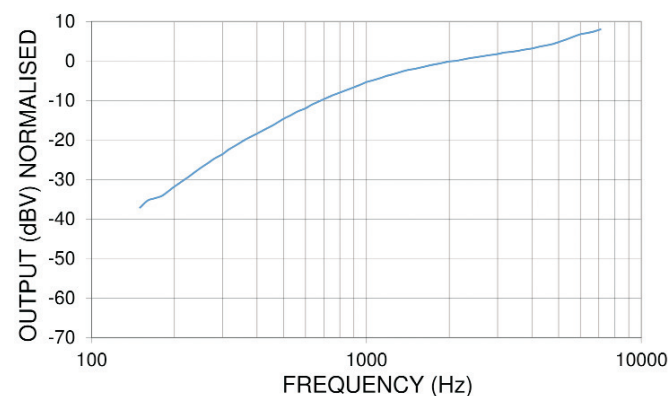

### Specification

|                |                           |
|----------------|---------------------------|
| Sensitivity    | -30dBV/Pa typical at 2kHz |
| Freq response  | 200Hz to 6kHz             |
| Distortion     | <5% at +10dB              |
| Power          | 8-16V via 150Ω            |
| Load impedance | 150Ω                      |

Tested in accordance with RTCA DO 160  
and RTCA D0-214

TSO C139 Certified

### Typical near field frequency response
